Name: Paul R. Sorensen

Office: City Council

District:

E-mail address: prs7omega@aol.com

Website: www.sorensen4CH.org

Age: 64

Occupation: Retired from major oil company

Residence: Cedar Hills

Years at residence: 1.5

Qualifications:

Philosophy of Government

Government should be limited -- not a burden to the people. Our elected officials should represent the people -- not special interests. Taxes should be minimal and even reduced when services are not needed or cannot be sustained. Government should not compete with private business.

Implementation of Philosophy

The role of the City of Cedar Hill Council is to promote and maintain safety and quality of life standards. I will support only those investments of the City that maintain the residents' standard of living and provide parks, etc., for the benefit of ALL residents.

The City should not own and/or operate a golf course. I reject the proposal to bond and build a club house, or other additional structures which would only guarantee more government growth and additional tax obligations. I will pursue appropriate options to either sell the golf course to a private enterprise or convert the space to recreational and residential use.

I advocate the return of the City to the financially solvent, low-taxed, family-oriented city that residents have come to appreciate and expect.

Qualifications:

Retired oil company manager with small business experience. Previously involved with local communities as liaison, committee and commission member.
