Notice of Public Meeting and Comment Period

The United States Department of Agriculture Natural Resources Conservation Service (USDA-NRCS), with assistance of Pleasant Grove City as the project sponsor, announces the availability of a draft Environmental Assessment (EA) describing the proposed improvements within the American Fork-Dry Creek Watershed. The project may be partially funded through the Watershed Protection and Flood Prevention Act of 1954 (PL83-566) and the Draft EA has been prepared in compliance with the National Environmental Policy Act (NEPA) per 40 CFR Parts 1500-1508.

The proposed improvements consist of piping approximately 6,000 feet of the Mill Ditch in Cedar Hills near the mouth of American Fork Canyon and replacement of the American Fork diversion structure. See Project Location Map.

You are invited to attend a Draft Environmental Assessment public meeting, which will describe the alternatives analyzed and potential impacts to the environment from the project.
